CASE REPORT

NARRATIVE

Case #18-21601
OFC K Christenson #356
Case Report Narrative

At 1050 hours I responded to a call of an Assault at the Fairfax Mental Health Hospital located at 10200 NE 132nd ST in Kirkland. [REDACTED] (DOB [REDACTED]) had been involuntarily committed to the hospital for treatment on 04/10/18. I made contact with the victim and reporting party [REDACTED] (DOB [REDACTED]). [REDACTED] related to me the following.

On 06/12/18 at around 0945 hours, psychiatric nurse practitioner for Fairfax Hospital. [REDACTED] was working at the hospital. [REDACTED] was conducting patient rounds when one of his patients, [REDACTED] contacted him. [REDACTED] wanted to talk so they both went to the nearby day room. [REDACTED] stated the conversation started with small talk and then [REDACTED] asked him to discharge her from the hospital. [REDACTED] explained to [REDACTED] that she needed five more days of treatment to get her mood more stable. [REDACTED] stated, "No, I will only do two more days. I want to get out on Thursday." [REDACTED] told her that was not possible and ended the conversation. [REDACTED] got up and left the room. As [REDACTED] entered the hall way, [REDACTED] yelled, "Fuck you!" and threw an orange at him that went past him. [REDACTED] turned to look and [REDACTED] had closed the distance between the two. [REDACTED] then punched [REDACTED] twice in the right side of the head. [REDACTED] said the first blow disoriented him and heard other employees gasp. The second blow caused [REDACTED] to lose balance and caused pain.

[REDACTED] was immediately restrained by hospital employees. As [REDACTED] was being taken away she was yelling, "I don't care, send me to jail!" and "You fucking prick, I should have punched you more!" [REDACTED] is convinced the action was volitional and deliberate. [REDACTED] believes that [REDACTED] would assault him again and is in fear of his safety. [REDACTED] stated he would assist in prosecution for the assault. See written statement for further details.

I took photographs of [REDACTED] injuries. [REDACTED] was complaining of tingling pain and stated the red marks on the right side of his face and head were caused by [REDACTED]. The photos were added to the case jacket. [REDACTED] refused to be seen or treated by Kirkland Fire on the scene and stated that he would see his own physician. [REDACTED] signed a Kirkland Medical Release waiver and it was added to the case jacket.

Fairfax employees who were witnesses to the above described event were identified and contacted. [REDACTED] (DOB [REDACTED]) related to me the following. On 06/12/18 at around 0945 hours [REDACTED] was working at the Fairfax Hospital. [REDACTED] was in the hallway and saw a patient he knew as [REDACTED] throw food at [REDACTED]. [REDACTED] tried to walk away and [REDACTED] charged at [REDACTED] and started punching him. [REDACTED] hit [REDACTED] with a closed fist on the right side of his face about three times. [REDACTED] intervened and restrained [REDACTED] as she was continuing to try to hit [REDACTED].

CASE# 2018-00021601

CASE REPORT

NARRATIVE (continuation)

took [REDACTED] to her room to calm down. [REDACTED] wanted to note that [REDACTED] had assaulted him about a month prior where she punched him in the stomach. Police were never contacted for that incident. See written statement for further details. [REDACTED] requested non-disclosure.

[REDACTED] (DOB [REDACTED]) was contacted and related the following. On 06/12/18 at around 1000 - 1015 hours [REDACTED] was working at Fairfax Hospital. [REDACTED] was making coffee for a patient when she was hit by an orange in the back of her leg. [REDACTED] turned and saw [REDACTED] exiting the day room with a patient named [REDACTED]. [REDACTED] was obviously upset and posturing. [REDACTED] had made the comment, "I am not afraid to go to jail." [REDACTED] then punched [REDACTED] in the right side of his head. [REDACTED] punched [REDACTED] at least twice. Immediately following, staff members moved in to separate the two. [REDACTED] was taken back to her room. [REDACTED] was continuing to make comments of, "I know what I did, send me to jail." [REDACTED] was sedated in an effort to calm her down. See written statement for further details. [REDACTED] requested non-disclosure.

Based on the above there is probable cause to arrest [REDACTED] for Assault 3rd Degree.

[REDACTED] was brought from her room to the court yard where I contacted her. I introduced myself and [REDACTED] immediately stated, "I do not want to say anything without a lawyer." I acknowledged [REDACTED] and explained to her that I was there to talk to her about the incident with [REDACTED]. I told [REDACTED] that I was placing her under arrest for Assault 3rd Degree. I placed [REDACTED] into handcuffs, gauging them for proper fit and double locking them for safety.

[REDACTED] was read her Constitutional Rights and she stated that she understood. [REDACTED] made an unsolicited exasperation, under her breath of, "I just lost my temper." [REDACTED] was walked to my patrol car where she was searched incident to arrest. [REDACTED] was transported to the Kirkland Jail for booking and processing. A super form was completed and [REDACTED] was subsequently transported to King County Jail.

Fairfax provided me a patient demographic profile work sheet. On it the document states that [REDACTED] is being treated for Schizoaffective disorder and bipolar t F250. The worksheet was added to the case jacket.

A request was made for surveillance footage of the hallways inside the hospital where this event occurred. It was not made clear to me when this would be available for viewing and collection for evidence.

This case will be forwarded to the King County prosecutor's office for filing.

A Probable Cause Certification was completed.
